Professional Summary

Passionate and detail-oriented Junior Frontend Web Developer who builds responsive, user-friendly web applications with HTML, CSS, JavaScript, React, and Tailwind CSS. Experienced in translating ideas into functional interfaces, implementing interactive features, integrating APIs, and deploying projects. I learn quickly, solve problems thoughtfully, and care about clean, maintainable code.

Technical Skills

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design
Development	Component-Based Development, DOM Manipulation, API Integration, UI/UX Implementation, Debugging
Tools	Git, GitHub, Visual Studio Code, npm, Vite, Local Storage API, Netlify

Selected Projects

Online Bookstore

React, Tailwind CSS, JavaScript

- Built a responsive bookstore experience for browsing books, viewing details, and managing a cart.
- Focused on reusable UI, clear interactions, and a consistent responsive layout.

Education

Bachelor of Science (B.Sc.) Physics (Electronics)

Federal University of Technology Minna, Niger State

Certifications

Responsive Web Design | JavaScript Fundamentals | React Development | Git & GitHub Version Control

Professional Strengths

Problem Solving | Team Collaboration | Attention to Detail | Communication | Adaptability | Time Management | Critical Thinking | Continuous Learning

Achievements

- Developed multiple fully responsive web applications using modern frontend technologies.
- Built projects demonstrating practical knowledge of React and JavaScript.
- Continuously learning and applying current frontend development best practices.
- Experienced in deploying applications using GitHub and Netlify.

Current Learning Focus

Improving React skills, learning TypeScript, and integrating APIs into practical projects.
